76. Decode 'ran' using the following data:

a. 'I can rest here' is represented as 'qua ta pol ran'.

b. 'I can sit there' is represented as 'pol ran sak no'.

Select the appropriate correct option with respect to above process.

Answer Options:

(1) Information a alone is sufficient for decoding.

(2) Information b alone is sufficient for decoding.

(3) Information a and b is necessary for decoding.

(4) Information a and b is not sufficient for decoding.

77. Reflecting surfaces of three plane mirrors having square shape and identical sizes placed perpendicular to each other, in such a way that mirror 1 and 3 are having reflecting surfaces parallel to each other also exactly face each other. If a ray of light is falling on mirror 1 at an angle 45 degrees then select the option that appropriately describes direction of the ray coming out after reflection from mirror 3.

(1) Perpendicular to the incidental ray that falls on the mirror 1.

(2) Parallel to the incidental ray that falls on the mirror 1.

(3) 45 degrees angle to the incidental ray that falls on the mirror 1.

(4) 60 degree angle to the incidental ray that falls on the mirror 1.
Study carefully reasoning of the argument given and select one from the options that uses closely parallel reasoning.

If I cook some special dish for dinner, my family members will be pleased. If I go for the beach stroll I will be relaxed and pleasant. Today I prefer a pleasant me to pleasant family members so I will go for the beach stroll.

(1) If I do overtime today I will earn more money. However if I spend time with my family I will get relaxed. I need to get relaxed today than I need more money. Therefore today I will go home to be with my family.

(2) If I go out now I will enjoy cool and pleasant breeze. However, if I go out, I will not clean my house, and if I do not clean my house I will have to live with dusty and unhealthy environment to which I am allergic. Therefore I had better not go out.

(3) If I give tuitions every day at home I will be able to buy a smartphone. But if I read books in the evening it will add to my knowledge and development. Right now it is more important for me to earn my own money, but I will regret it if I did not invest time for personal development. Therefore I will give tuitions only on four days in a week.

(4) I will eat that cake and ice cream to feel elated. But if I do not eat that cake and ice cream I don't need to burn calories. I don't care about gaining weight anymore. So I am going to eat that cake and ice cream.
79. In a certain species of animal newborn female attains adulthood when it is two months old and after this on an average gives birth to one new female infant after every two months for five years in favourable conditions. If there is only one infant female in the group as its mother, only adult female in the group, died accidentally after completing one month's weaning period, select total number of females in the group immediately after completion eight months in favourable condition.

(1) 8  (2) 5  (3) 4  (4) 3

Some recent films have been very expensive to make, but have not been the big box-office hits that would have justified the expense. Also there are films made very cheaply that have been received with both huge critical and popular acclaim. Indeed, some directors who have made successful low-budget films have gone on to make unsuccessful but expensive films. It is obvious then that if directors want to make popular films, they should stick to low budgets.

Select the best statement of the flaw from following with respect to above argument.

(I) Critics are often wrong in their predictions about the popularity of films.
(2) The cost of making a film is normally greater than its original budget.
(3) The cost of a film need not be the factor that determines its popularity.
(4) The popularity of a film would justify a high level of expense in making it.
81. If the statement, ‘none but some brave win the race’ is false then which of the following statements can claim to be true?

(1) All but brave persons win the race.
(2) Some persons who win the race are brave.
(3) Some persons who win the race are not brave.
(4) No person who wins the race is brave.

82. Among, Pravin, Ajay, Rahul, Soham and Tanish, Pravin is second tallest and Soham is immediate taller than the shortest. Who among them is in the middle when they stand in the order of their height?

a. Ajay ranks third in height above Soham when all are standing in the order of height.

b. Rahul is taller than Soham but shorter then Pravin.

c. Tanish is not the shortest.

Select option that is sufficient to answer question.

Answer Options:

(1) Only b
(2) Only a and b
(3) Either b only or a and c both together
(4) Only b and c

A आणि B खेळत असलेले संयुक्त खेळ काळेचे ?
(1) कबड्डी, हाकी
(2) क्रिकेट, कबड्डी

In a bag there are single colour balls with four different colours only. Excluding exactly 12 all balls are blue, excluding exactly 21 balls all are yellow, excluding exactly 20 balls all are red, and excluding exactly 19 balls all are green. How many balls are there in this bag?
(1) 26
(2) 24
(3) 38
(4) 72
An average of group of students in achievement test is 62. Average of the 20% students scoring highest score is 89 and that of the 25% students scoring lowest is 36. Select the option that indicates average of remaining middle percentage of students.

(1) Approximately 80
(2) 64
(3) 78
(4) 81

I am a man. Dattu’s son is my son’s father. Dattu is...

(1) Myself
(2) My grandfather
(3) My brother
(4) My father
87. Six vehicles are parked in a single row as described below. Select the vehicle that is at extreme right.

- The vehicle on the extreme right is not the dumper.
- The motor bike and the dumper are not parked next to each other.
- The minivan and the car are parked next to each other.
- Lorry is the 1st vehicle from the left.
- Tempo is the 2nd vehicle from the right.

**Answer Options:**

(1) Motor bike  (2) Minivan  (3) Car  (4) Lorry

88. Select the correct option with respect to following statements.

Statement 1 ($S_1$) - If $(x \times x) = (y \times y)$, then $x$ is always equal to $y$.

Statement 2 ($S_2$) - If $(x \times x \times x) = (y \times y \times y)$, then $x$ may be always equal to $y$.

(1) $S_1$ - true; $S_2$ - false  
(2) $S_1$ - false; $S_2$ - true  
(3) Both $S_1$ and $S_2$ are false  
(4) Both $S_1$ and $S_2$ are true
89. Nita walks from school to her house at 2.5 km/hr and arrives 12 minutes late. One day she decided to walk at 4 km/hr and arrived 15 minutes earlier. Select the number indicating how far her school is from house in km.

(1) 3.5
(2) 3
(3) 2.5
(4) 2

Every student of class 7 enjoys only one sport. Excluding exactly 30 students all enjoy kabaddi, excluding exactly 31 students all enjoy football, excluding exactly same number of students who don’t enjoy football all enjoy kho-kho and exactly excluding 37 students all enjoy hockey. No student enjoys any other game that is not mentioned here. Select the most appropriate option that indicates number of students who enjoy hockey.

(1) Half the number who don’t enjoy kho-kho.
(2) One-fifth of number who don’t enjoy football.
(3) One-fifth of the number who don’t enjoy kabaddi.
(4) Data in insufficient for deciding the exact number.
91. Which of the following districts has its least boundary with the State of Telangana?

(1) Nanded  (2) Yeotmal  (3) Gadchiroli  (4) Chandrapur

92. Which of the following statements is/are not correct?

a. Dry thorny forests are found in Pune and Ahmednagar districts.

b. Subtropical evergreen forests are found at Panchgani and Matheran.

c. Anjan trees are found in Konkan on large scale.

Answer Options:

(1) Only statement a  (2) Only statement c

(3) Only statement c and b  (4) Only statement b and a
